		_		_	_	pecies. Attacl	n photo	graphs

	☐ Attach a research proposal including justification, methods, and need for use of E&T species.
	☐ Attach documentation of the qualifications of the applicant to conduct the proposed research, including educational history, experience in similar research (i.e. curriculum vitae)
]	Describe how the proposed research will enhance the survival and well-being of the E&T species:
-	
-	
ıti	ional permit application requirements:
I	☐ Attach an outline of the educational program to be presented. All programs must include information on the T&E status of the species displayed and an explanation of its legal acquisition.
ı	☐ Attach a list of all similar programs conducted by the applicant during the previous two years including estimates of audience size.
]	Describe how possession of the E&T species will enhance the welfare of the species involved:
-	
	Verify that any specimens to be used in the educational program will be obtained legally, include contact person information or attach documentation.
-	
gi	cal/ Botanical permit application requirements:
[☐ Attach a photocopy of an Exhibitor Permit issued by the U.S. Department of Agriculture ☐ Attach an outline of all proposed programs that would utilize specimens or products of E&T species
I	☐ Attach documentation of the training and experience of those persons to be responsible for the care of the E&T species
]	Describe how possession of the E&T species will enhance the welfare of the species involved:

	contact person information or attach documentation if applicable.
Limited	ed permit (hobbyist) application requirements: Il permits require E&T species to be acquired prior to May 1, 1973, acquired out of state, or acquired from another Endangered reatened Species Possession Permit holder.
	☐ Attach a statement of intent to purchase and receipt. (If receipt is not yet available, the receipt must
	be submitted within 5 days of purchase).
	or
	☐ Attach a notarized statement explaining the circumstances of the acquisition of the E&T species.
	Attach a notarized statement explaining the circumstances of the acquisition of the E&T species.
	agation addendum but wish to propagate any of these species listed?(Circle one) Yes No
Do yo	
	Note: Propagation of endangered and threatened species is permissible for holders of scientific and zoological/botanical permits only. Educational and Limited permit (hobbyist) holders may no propagate E&T species.
T.C	
	answer the following: How will the propagation of endangered or threatened animals or federal endangered plants by the applicant enhance the welfare of the species?
2.	Describe how successfully propagated individuals will be dispossessed. (Note that the release of such individuals into natural populations or attempts to reintroduce a species into an area where it is known or believed to have formerly occurred will be allowed only with the express written consent of the Director of the IDNR.)
3.	Describe why the propagation of the endangered or threatened species is necessary for the success of the scientific or zoological/botanical project.

CERTIFICATION

1.								
1.	Pursuant to 5 ILCS 100/10-65(c), IDNR must require license applicants to certify as follows: "I hereby certify, under penalty of perjury," that: (please check only one)							
	I am not subject to a child support order.
